PROJECTS

1. ZENTOR - AI-Powered Placement Preparation Platform | *Next.js, Firebase, Gemini APIs*

Developed Zentor, an AI-based placement preparation platform with **250+ active users**, centralizing placement resources and activities. Integrated features for learning resources, ATS-friendly resume building, and AI-powered mock interviews and assessments.

GitHub Link: <https://github.com/Pradip-Garai/Zentor2>

Live Demo: <https://meetzentor.vercel.app>

2. AI – Powered LinkedIn Post Generator | *Python, Streamlit, Groq APIs, MongoDB*

Developed an AI-powered application to help LinkedIn influencers generate high-engagement posts by analyzing writing patterns. Implemented Groq LLaMA-based text generation with customizable inputs and secure OTP-based authentication using MongoDB.
